

Dear Brooksbank student,

We are proud to offer a blended learning at Brooksbank. This means you and extend learning outside of the classroom with ease. In the event that you are not able to come into school we have worked hard to make sure that you can still access activities for all of the subjects that you study, whatever year group you are in.

Every student will be accessing work through one online platform, Showbie. This should help you and your parents to find all of your work quickly and easily.

Over the following pages we will show you how to complete basics, like logging into the app, where you will find all of your assignments and how your teachers will be monitoring and communicating with you.

Where can I find Showbie?

If you have access to an apple device then you can download the Showbie app through the app store:

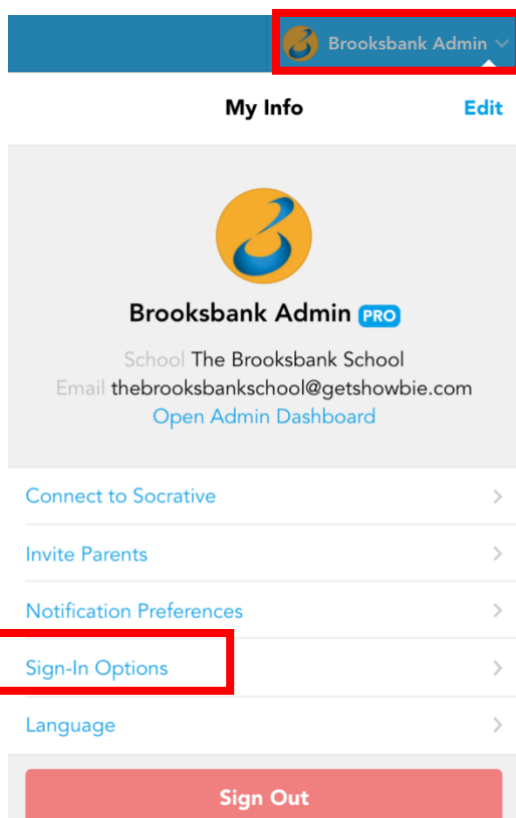

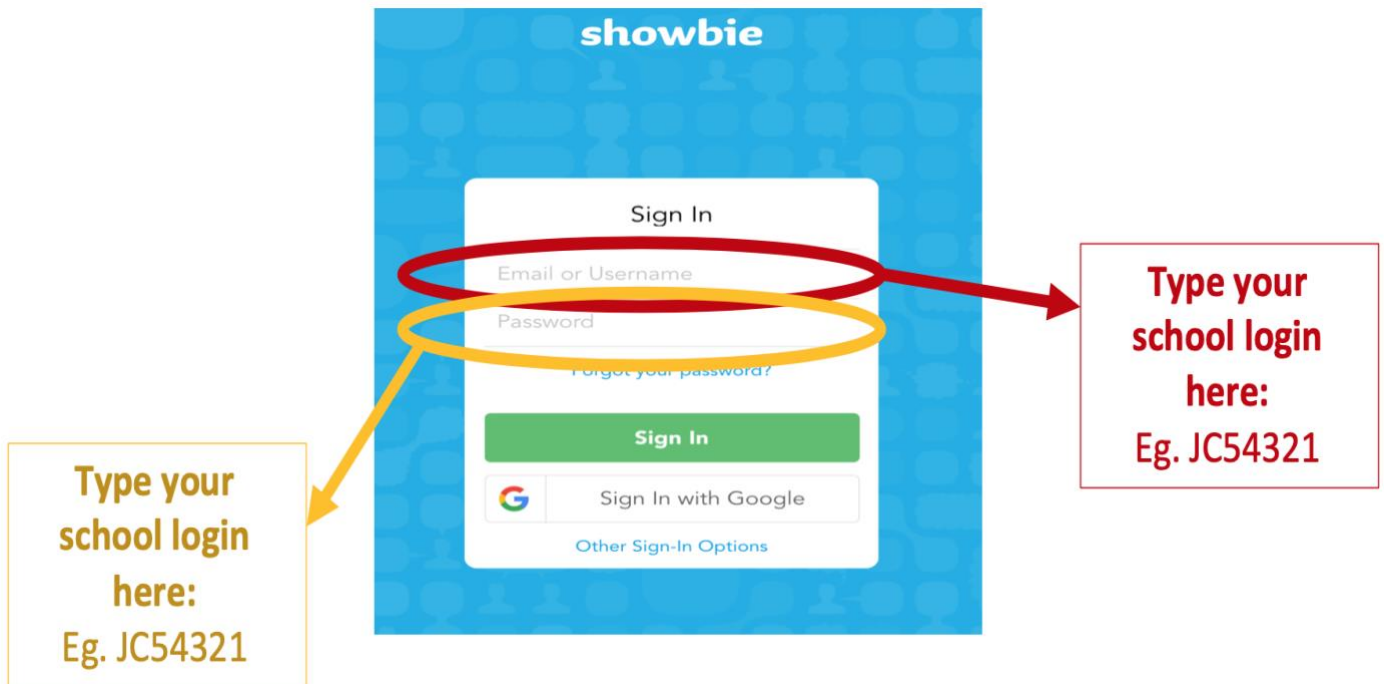

Don't worry if you are working on a computer or an android device. Showbie is available by searching for it in your internet browser (we recommend Google Chrome):

www.showbie.com

How do I login?

This is simple to do. Your school login is your username and your password!

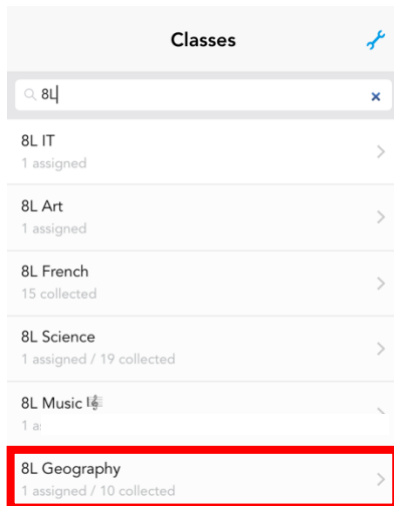

You might want to change your password for security. To do this you need to click on the **circle in the top right corner**. You will see this menu.

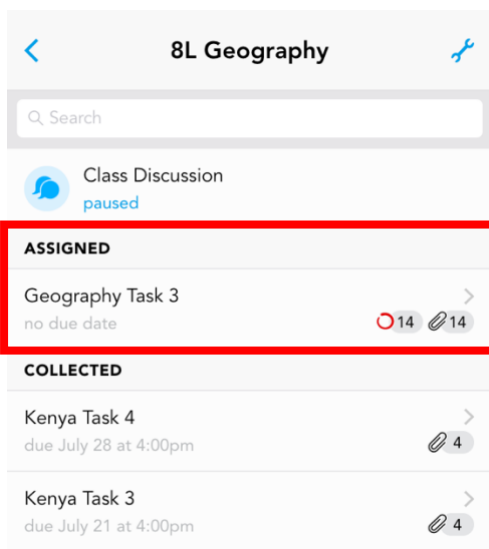

Click '**Sign-In-Options**' to change your password.

How do I access my work?

When you login to Showbie you will see a list of all of your classes.

Students can select the subject that they want to complete and submit work for.

Each subject will have folders or assignments that are assigned.

Collected assignments are still visible to recap tasks and learning.

Geog Task 1

All work completed is to be uploaded to Showbie. To do this you should:

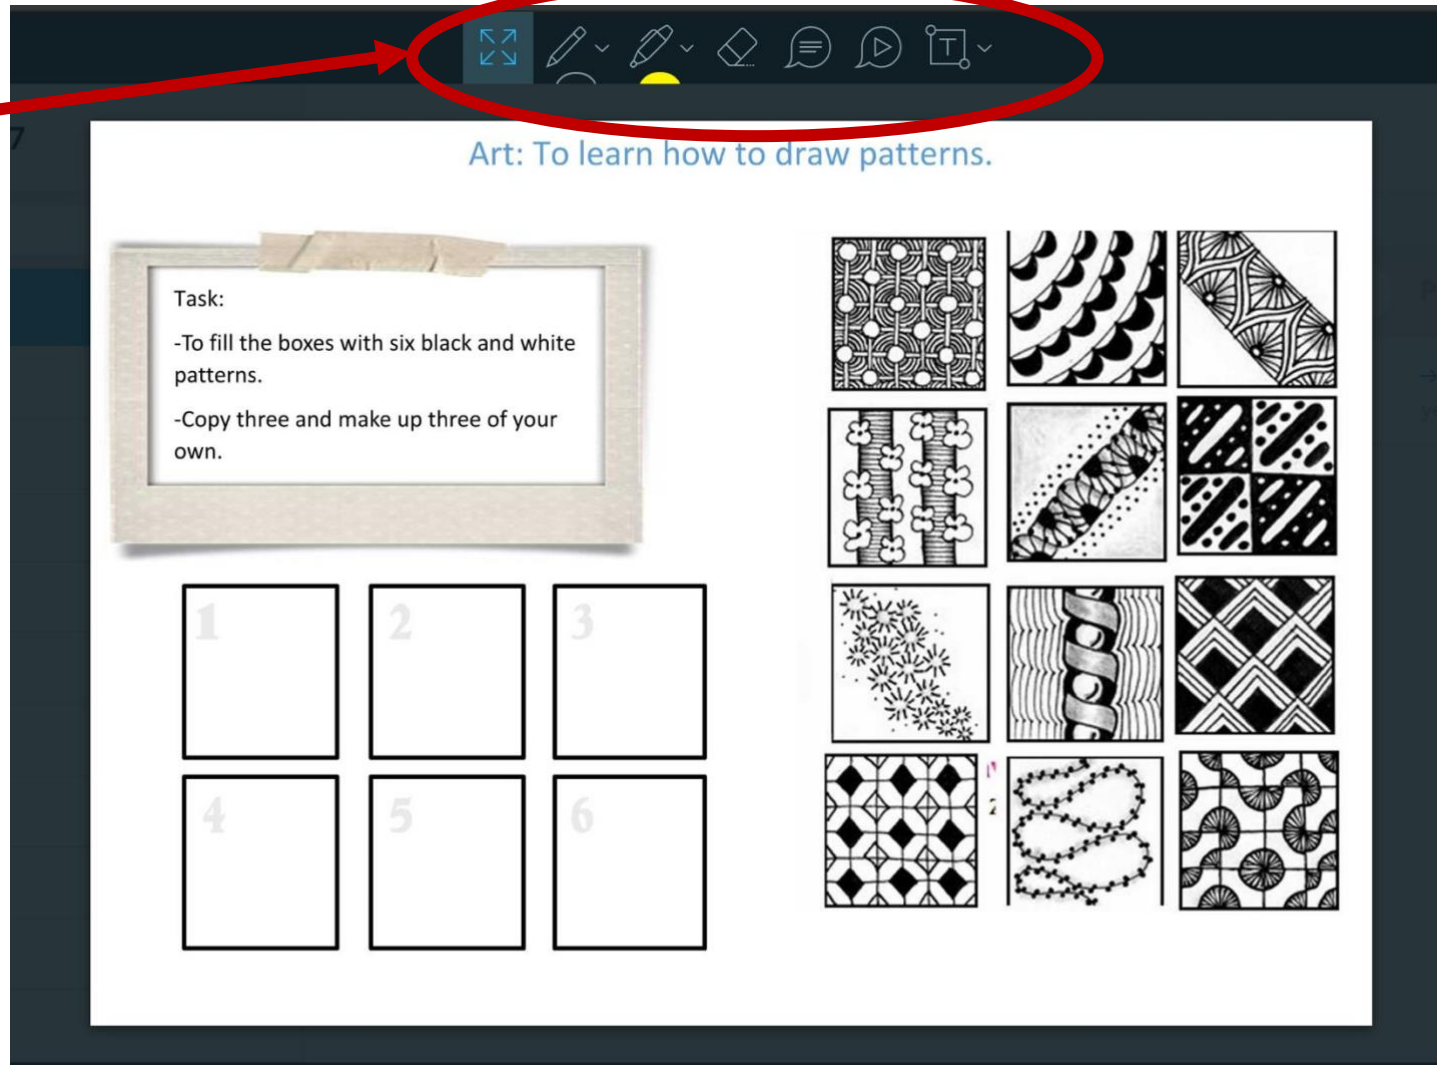

1. Make sure you have saved your work to your computer
2. Click the blue plus (+) sign on the right
3. A drop down menu will appear, select add from computer
4. Select the file you wish to upload. It will appear in your assignment.

If you need help you can of course drop us an email, or post a comment in your Showbie assignment with any issues.

An example of a task set for students to complete.

This is an example of an activity that the Art department have set.

These tools allow you to complete work online, on your phone, tablet or computer.

Art: To learn how to draw patterns.

Task:

- To fill the boxes with six black and white patterns.
- Copy three and make up three of your own.
